

Maintenance Aerosols

MD4

An essential, general purpose maintenance spray with a multitude of uses. MD4 is an excellent penetrating and dewatering fluid. It can also be used for general short term lubrication, drying/cleaning ignition systems and will give short term corrosion protection.

Part No.
400g Aerosol MDF 400

PAVAN

A powerful water washable, non-caustic, solvent degreaser. On contact, Pavan will dissolve both oil and grease; the resulting emulsion can then be rinsed away with water. Pavan is easy to use and fast acting. Care must be taken when using Pavan near plastic components.

Part No.
400g Aerosol PAV 400

PRIMA

A blend of carefully chosen silicone oils formulated to produce a multi-purpose valeting product that cleans and protects at the same time. Easy to use Prima gives a "like new" look to a range of surfaces including chrome, stainless steel, aluminium, vinyl and plastic. Can also be used for light general lubrication.

Part No.
400g Aerosol PRI 400

PRISE

A lead-free assembly/anti-seize grease in aerosol form. It is ideal for use as a thread lubricant when assembling engines or other components. It will perform at very high temperatures and should ensure easy disassembly.

Part No.
400g Aerosol PSE 400

CARB CLEANER

A blend of solvents designed to remove stubborn lacquer and dirt from carburettors, fuel injection systems and automatic chokes. Allows smoother operation and improved fuel economy.

Part No.
400g Aerosol CAR 400

SOLVENT CLEANER

A residue-free solvent degreaser and brake cleaner that is free from chlorinated and other ozone depleting chemicals.

Part No.
400g Aerosol SOL 400

CROMA

A semi-synthetic solvent deposited chain lube designed to protect chains from both wear and corrosion. After application, the solvent flashes off, leaving a tenacious non-fling coating. Croma is recommended for both standard and "O" ring chains.

Part No.
400g Aerosol CRO 400

Hygiene and Handcare

LYDIAN

A powerful water washable, non-caustic, solvent degreaser. Lydian will remove oil, grease and dirt from a variety of materials such as metal, concrete and some painted surfaces. NB. Lydian should not be used on plastic surfaces, parts washers with plastic pumps/components or Tarmac.

Part Nos.
5 litre LYD 005
25 litre LYD 025
205 litre LYD 205

PRESTO

Originally formulated to kill bacteria in washrooms and work areas, Presto can be used to maintain cleanliness in kennels, stables, farms and any area where animals are kept on hard standing. Presto can be used diluted and in pressure washers.

Part Nos.
5 litre PRE 005
25 litre PRE 025
205 litre PRE 205

CADENCE TFR

A low foaming detergent designed for use in both hot and cold pressure washers. Cadence TFR is easily rinsed to leave a stain and smear free finish. Safe to use on paintwork, metal surfaces, glass and rubber and also effective in both hard and soft water.

Part Nos.
5 litre CAD 005
25 litre CAD 025
205 litre CAD 205

ABGEL CITRUS CLEANSER

A powerful yet safe, solvent-free, beaded gel hand cleaner. Contains mildly abrasive polybeads to assist the washing process. Particularly suited for dispenser use including heavy soiling.

Part No.
5 litre ABG 005

MOMENTO

A premium grade, solvent-free, paste type hand cleaner. Based on natural minerals and selected oils to maintain the skin's moisture balance. The washing process is helped by the addition of micro granules. Momento can be used to remove oil, grease, tar, bitumen and even printing inks.

Part Nos.
3 litre MOM 003
10 litre MOM 010

BARRIER CREAM

A smooth white antiseptic pre-work cream formulated to help prevent dirt and grime bonding to the skin, reducing the possibility of infections and facilitating the washing process. Morris Barrier Cream is non slippery after initial drying and can be used where a firm handgrip is essential.

Part No.
2.5kg BAR 610

TERRALUS
Earth Welfare Products

A range of earth welfare products formulated for use in applications where environmental sensitivity is paramount.

TERRALUS UTTO. A biodegradable Universal Tractor Transmission Oil designed for use in a wide variety of transmissions, hydraulic systems, axles and final drives.

TERRALUS BVG 32, 46, 68. A vegetable based biodegradable hydraulic oil range that has been specially developed to meet concern over the inevitable spills, leakages and total system losses that can occur with hydraulic equipment.

TERRALUS SB46. A synthetic biodegradable hydraulic fluid, based on synthetic esters to reduce gumming and high temperature oxidation, while improving low temperature fluidity.

TERRALUS AIR-PRO 68. A fully synthetic biodegradable compressor lubricant designed to meet the requirements of rotary screw and reciprocating compressors.

TERRALUS CBO. A biodegradable chain saw cutter bar oil approved and endorsed by the British Agricultural & Garden Machinery Association.

TERRALUS AQUA SPORT. A fully synthetic outboard two stroke oil recommended for use in lakes and reservoirs requiring biodegradable lubricants.

TERRALUS VIROCLEAN. A non-toxic, water based, biodegradable cleaner.

TERRALUS LIFE EP2. Calcium based biodegradable grease with a NLGI No.2 consistency.

Full product data sheets are available upon request or downloadable from the Morris Lubricants Website.
