

# Tabor 95

## Safety Data Sheet

According to REACH Regulation (EC) No 1907/2006, as retained and amended in UK law, and based on EU 2020/878.  
SDS Reference Number: 21484  
Issue date: 28/11/2023 Revision date: 09/09/2024 Supersedes version of: 28/11/2023 Version: 1.1

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Product form : Mixture  
Product name : Tabor 95  
Product code : 7095  
Type of product : Mould oil  
Product group : Trade product

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

##### Relevant identified uses

Main use category : Industrial use, Professional use  
Use of the substance/mixture : Mould oil

| Title                                                                                                                                                                               | Life cycle stage         | Use descriptors         |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|-------------------------|
| (Industrial) Application of lubricant to work pieces or equipment by dipping, brushing or spraying (without exposure to heat), e.g. mould releases, corrosion protection, slideways | Industrial, Professional | SU3, PC24, PROC8b, ERC4 |

Full text of use descriptors: see section 16

#### 1.3. Details of the supplier of the safety data sheet

##### Manufacturer

Morris Lubricants  
Castle Foregate  
SY1 2EL Shrewsbury, Shropshire  
United Kingdom  
T +44 (0) 1743 232200  
[sds@morris-lubricants.co.uk](mailto:sds@morris-lubricants.co.uk)

#### 1.4. Emergency telephone number

Emergency number : +44 (0) 1743 232200  
08.45 - 17.00 GMT

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

##### Classification according to Regulation (EC) No. 1272/2008 [CLP]

Not classified

##### Adverse physicochemical, human health and environmental effects

No additional information available

#### 2.2. Label elements

##### Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Precautionary statements (CLP) : P501 - Dispose of contents and container to a hazardous or special waste collection point.  
EUH-statements : EUH210 - Safety data sheet available on request.

#### 2.3. Other hazards

Contains no PBT and/or vPvB substances  $\geq 0.1\%$  assessed in accordance with REACH Annex XIII

# Tabor 95

## Safety Data Sheet

According to REACH Regulation (EC) No 1907/2006, as retained and amended in UK law, and based on EU 2020/878.

The mixture does not contain substance(s) included in the list established in accordance with Article 59(1) of REACH for having endocrine disrupting properties, or substance(s) are not identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0,1 %

### SECTION 3: Composition/information on ingredients

#### 3.2. Mixtures

| Name                                                                                                                                                   | Product identifier                                                                                                            | %           | Classification according to Regulation (EC) No. 1272/2008 [CLP] |
|--------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------|-------------|-----------------------------------------------------------------|
| Distillates (petroleum), hydrotreated heavy paraffinic                                                                                                 | CAS-No.: 64742-54-7<br>EC-No.: 265-157-1<br>EC Index-No.: 649-467-00-8<br>REACH-no: 01-2119484627-25, UK-01-1759217276-5      | ≥ 70 – < 90 | Asp. Tox. 1, H304                                               |
| Hydrotreated Heavy Naphthenic Distillate substance with national workplace exposure limit(s) (GB); substance with a Community workplace exposure limit | CAS-No.: 64742-52-5<br>EC-No.: 265-155-0<br>EC Index-No.: 649-465-00-7<br>REACH-no: 01-2119467170-45                          | ≥ 10 – < 30 | EUH210                                                          |
| Lubricating Oil (Petroleum) C15-30 hydrotreated neutral oil-based                                                                                      | CAS-No.: 72623-86-0<br>EC-No.: 276-737-9<br>EC Index-No.: 649-482-00-X<br>REACH-no: UK-01-6260983107-X-XXXX, 01-2119474878-16 | ≥ 1 – < 5   | Asp. Tox. 1, H304                                               |

Comments : A petroleum product. DMSO extract < 3 % weight (IP 346)  
Full text of H- and EUH-statements: see section 16

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

First-aid measures general : If you feel unwell, seek medical advice.  
First-aid measures after inhalation : Move the affected person away from the contaminated area and into the fresh air. If you feel unwell, seek medical advice.  
First-aid measures after skin contact : Take off contaminated clothing and wash it before reuse. Gently wash with plenty of soap and water.  
First-aid measures after eye contact : Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.  
First-aid measures after ingestion : Get medical advice/attention if you feel unwell. Do NOT induce vomiting.

#### 4.2. Most important symptoms and effects, both acute and delayed

Symptoms/effects after inhalation : None under normal use. Inhalation may cause irritation (cough, short breathing, difficulty in breathing).  
Symptoms/effects after skin contact : Repeated exposure may cause skin dryness or cracking.  
Symptoms/effects after eye contact : May cause slight irritation.  
Symptoms/effects after ingestion : Although not classified, the product contains mineral oil. If aspirated into the lungs e.g. through vomiting after ingestion, admit to hospital immediately.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

# Tabor 95

## Safety Data Sheet

According to REACH Regulation (EC) No 1907/2006, as retained and amended in UK law, and based on EU 2020/878.

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

- Suitable extinguishing media : Dry chemical, CO<sub>2</sub>, dry sand, or alcohol-resistant foam.  
Unsuitable extinguishing media : Do not use a heavy water stream.

#### 5.2. Special hazards arising from the substance or mixture

- Explosion hazard : Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries.  
Hazardous decomposition products in case of fire : Toxic fumes may be released. Carbon monoxide. Carbon dioxide.

#### 5.3. Advice for firefighters

- Precautionary measures fire : Keep container closed when not in use.  
Firefighting instructions : Prevent fire fighting water from entering the environment. Use water spray or fog for cooling exposed containers.  
Protection during firefighting : Self-contained breathing apparatus.

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

- General measures : Clean up any spills as soon as possible, using an absorbent material to collect it.

##### For non-emergency personnel

- Protective equipment : Wear recommended personal protective equipment.  
Emergency procedures : Evacuate unnecessary personnel. Caution : this product can cause the floor to be very slippery.

#### 6.2. Environmental precautions

Do not allow to enter drains or water courses. Notify authorities if liquid enters sewers or public waters.

#### 6.3. Methods and material for containment and cleaning up

- For containment : Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams.  
Methods for cleaning up : Clear up rapidly by scoop or vacuum. Collect leaking and spilled liquid in sealable containers as far as possible. Absorb remaining liquid with sand or inert absorbent and remove to safe place. Notify authorities if product enters sewers or public waters. This material and its container must be disposed of in a safe way, and as per local legislation.

#### 6.4. Reference to other sections

No additional information available

### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

- Additional hazards when processed : Not expected to present a significant hazard under anticipated conditions of normal use.  
Precautions for safe handling : Do not eat, drink or smoke when using this product.  
Hygiene measures : Wear personal protective equipment. Wash contaminated clothing before reuse. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

#### 7.2. Conditions for safe storage, including any incompatibilities

- Technical measures : Store in a well-ventilated place. Keep container tightly closed.  
Storage conditions : Do not expose to temperatures exceeding 50 °C/ 122 °F. Keep container closed when not in use. Store in a dry place.  
Incompatible products : Oxidizing agent. Strong acids. Strong bases.  
Storage area : Store in a well-ventilated place.

# Tabor 95

## Safety Data Sheet

According to REACH Regulation (EC) No 1907/2006, as retained and amended in UK law, and based on EU 2020/878.

Special rules on packaging : Store in a closed container.

### 7.3. Specific end use(s)

No additional information available

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

#### National occupational exposure and biological limit values

| Hydrotreated Heavy Naphthenic Distillate (64742-52-5)     |                      |
|-----------------------------------------------------------|----------------------|
| <b>EU - Indicative Occupational Exposure Limit (IOEL)</b> |                      |
| IOEL TWA                                                  | 5 mg/m <sup>3</sup>  |
| IOEL STEL                                                 | 10 mg/m <sup>3</sup> |
| <b>United Kingdom - Occupational Exposure Limits</b>      |                      |
| WEL TWA (OEL TWA)                                         | 5 mg/m <sup>3</sup>  |
| WEL STEL (OEL STEL)                                       | 10 mg/m <sup>3</sup> |

### 8.2. Exposure controls

#### Appropriate engineering controls

##### Appropriate engineering controls:

Ensure good ventilation of the work station. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure.

#### Personal protection equipment

##### Personal protective equipment symbol(s):

#### Eye and face protection

##### Eye protection:

Chemical goggles or face shield

#### Skin protection

##### Skin and body protection:

Wear protective clothing

#### Hand protection:

Gloves

| Hand protection |                      |                   |                |             |          |
|-----------------|----------------------|-------------------|----------------|-------------|----------|
| Type            | Material             | Permeation        | Thickness (mm) | Penetration | Standard |
|                 | Butyl rubber         | 4 (> 120 minutes) | 0.7            |             |          |
|                 | Nitrile rubber (NBR) | 5 (> 240 minutes) | 0.8            |             |          |
|                 | Viton® II            | 5 (> 240 minutes) | 0.3            |             |          |

#### Respiratory protection

##### Respiratory protection:

No respiratory protection needed under normal use conditions. Where exposure through inhalation may occur from use, respiratory protection equipment is recommended

# Tabor 95

## Safety Data Sheet

According to REACH Regulation (EC) No 1907/2006, as retained and amended in UK law, and based on EU 2020/878.

| Respiratory protection |             |                                 |          |

| Device                 | Filter type | Condition                       | Standard |
| Disposable half mask   | Type P3     | Protection for Liquid particles | EN 149   |

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|                                                 |                                                                    |
|-------------------------------------------------|--------------------------------------------------------------------|
| Physical state                                  | : Liquid                                                           |
| Colour                                          | : amber.                                                           |
| Appearance                                      | : Liquid.                                                          |
| Odour                                           | : mild.                                                            |
| Odour threshold                                 | : Not available                                                    |
| Melting point                                   | : Not available                                                    |
| Freezing point                                  | : Not available                                                    |
| Boiling point                                   | : > 320 °C                                                         |
| Flammability                                    | : Not flammable, Heating may cause a fire.                         |
| Lower explosion limit                           | : Not available                                                    |
| Upper explosion limit                           | : Not available                                                    |
| Flash point                                     | : 192 °C PMCC                                                      |
| Auto-ignition temperature                       | : Not available                                                    |
| Decomposition temperature                       | : Not available                                                    |
| pH                                              | : Not available                                                    |
| Viscosity, kinematic @ 40°C                     | : 21.1 mm <sup>2</sup> /s                                          |
| Solubility                                      | : Material nearly insoluble in water. Soluble in organic solvents. |
| Partition coefficient n-octanol/water (Log Kow) | : ≈ 7 Not determined. Typical for mineral oil                      |
| Vapour pressure                                 | : Not available                                                    |
| Vapour pressure at 50°C                         | : Not available                                                    |
| Density                                         | : Not available                                                    |
| Relative density                                | : 0.872                                                            |
| Relative vapour density at 20°C                 | : Not available                                                    |
| Particle characteristics                        | : Not applicable                                                   |

### 9.2. Other information

#### Other safety characteristics

|                        |                                                                                                                                                                           |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Additional information | : The product is a complex mixture, the majority of which would not be classed as a VOC. However it cannot be discounted that trace or low levels of VOCs may be present. |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

The product is non-reactive under normal conditions of use, storage and transport.

### 10.2. Chemical stability

Stable under normal conditions of use.

### 10.3. Possibility of hazardous reactions

No additional information available

### 10.4. Conditions to avoid

Extremely high or low temperatures. Moisture.

### 10.5. Incompatible materials

No additional information available

# Tabor 95

## Safety Data Sheet

According to REACH Regulation (EC) No 1907/2006, as retained and amended in UK law, and based on EU 2020/878.

### 10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## SECTION 11: Toxicological information

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity (oral) : Not classified (Based on available data, the classification criteria are not met)  
Acute toxicity (dermal) : Not classified  
Acute toxicity (inhalation) : Not classified

#### Hydrotreated Heavy Naphthenic Distillate (64742-52-5)

|                    |                     |
|--------------------|---------------------|
| LD50 oral rat      | > 5000 mg/kg IUCLID |
| LD50 dermal rabbit | > 5000 mg/kg        |

Skin corrosion/irritation : Not classified (Based on available data, the classification criteria are not met)  
Additional information : Repeated exposure may cause skin dryness or cracking.  
Serious eye damage/irritation : Not classified (Based on available data, the classification criteria are not met)  
Respiratory or skin sensitisation : Not classified (Based on available data, the classification criteria are not met)  
Germ cell mutagenicity : Not classified (Based on available data, the classification criteria are not met)  
Carcinogenicity : Not classified  
Additional information : This product contains mineral oils which are considered to be severely refined and not considered to be carcinogenic under IARC. All of the oils in this product have been demonstrated to contain less than 3% extractables by the IP346 test  
Reproductive toxicity : Not classified (Based on available data, the classification criteria are not met)  
STOT-single exposure : Not classified (Based on available data, the classification criteria are not met)  
STOT-repeated exposure : Not classified (Based on available data, the classification criteria are not met)

#### Hydrotreated Heavy Naphthenic Distillate (64742-52-5)

|                                     |                                                                                                                                         |
|-------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| LOAEL (oral, rat, 90 days)          | 125 mg/kg bodyweight Animal: rat, Animal sex: male, Guideline: OECD Guideline 408 (Repeated Dose 90-Day Oral Toxicity Study in Rodents) |
| NOAEL (dermal, rat/rabbit, 90 days) | ≈ 1000 mg/kg bodyweight Animal: rabbit, Guideline: OECD Guideline 410 (Repeated Dose Dermal Toxicity: 21/28-Day Study)                  |

Aspiration hazard : Not classified  
Additional information : Although not classified, the product contains mineral oil. If aspirated into the lungs e.g. through vomiting after ingestion, admit to hospital immediately.

| Viscosity, kinematic @ 40°C | 22 mm <sup>2</sup> /s |
|-----------------------------|-----------------------|

### 11.2. Information on other hazards

#### Other information

Potential adverse human health effects and symptoms : Based on available data, the classification criteria are not met

## SECTION 12: Ecological information

### 12.1. Toxicity

Hazardous to the aquatic environment, short-term (acute) : Not classified

# Tabor 95

## Safety Data Sheet

According to REACH Regulation (EC) No 1907/2006, as retained and amended in UK law, and based on EU 2020/878.

Hazardous to the aquatic environment, long-term (chronic) : Not classified.

Additional information : Based on available data, the classification criteria are not met.

### Hydrotreated Heavy Naphthenic Distillate (64742-52-5)

|                      |                    |
|----------------------|--------------------|
| LC50 - Fish [1]      | > 5000 mg/l IUCLID |
| EC50 - Crustacea [1] | > 1000 mg/l IUCLID |
| EC50 96h - Algae [1] | > 1000 mg/l IUCLID |

### 12.2. Persistence and degradability

#### Tabor 95

Persistence and degradability : Not established.

#### Distillates (petroleum), hydrotreated heavy paraffinic (64742-54-7)

Persistence and degradability : Not rapidly degradable

#### Lubricating Oil (Petroleum) C15-30 hydrotreated neutral oil-based (72623-86-0)

Persistence and degradability : Not rapidly degradable

#### Hydrotreated Heavy Naphthenic Distillate (64742-52-5)

Persistence and degradability : Not rapidly degradable

### 12.3. Bioaccumulative potential

#### Tabor 95

Partition coefficient n-octanol/water (Log Kow) :  $\approx 7$  Not determined. Typical for mineral oil

#### Hydrotreated Heavy Naphthenic Distillate (64742-52-5)

Partition coefficient n-octanol/water (Log Pow) : 3.9 – 6 IUCLID

### 12.4. Mobility in soil

No additional information available

### 12.5. Results of PBT and vPvB assessment

No additional information available

### 12.6. Endocrine disrupting properties

No additional information available

### 12.7. Other adverse effects

No additional information available

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

Product/Packaging disposal recommendations : Dispose of contents/container to a hazardous or special waste collection point.  
European List of Waste (LoW, EC 2000/532) : 13 08 00 - oil wastes not otherwise specified  
HP Code : HP15 - "Waste capable of exhibiting a hazardous property listed above not directly displayed by the original waste".

## SECTION 14: Transport information

In accordance with ADR / IMDG / IATA / ADN / RID

# Tabor 95

## Safety Data Sheet

According to REACH Regulation (EC) No 1907/2006, as retained and amended in UK law, and based on EU 2020/878.

| ADR                                     | IMDG           | IATA           | ADN            | RID            |

| No supplementary information available  |                |                |                |                |

### 14.6. Special precautions for user

#### Overland transport

Not applicable

#### Transport by sea

Not applicable

#### Air transport

Not applicable

#### Inland waterway transport

Not applicable

#### Rail transport

Not applicable

### 14.7. Maritime transport in bulk according to IMO instruments

Not applicable

## SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### EU-Regulations

##### REACH Annex XVII (Restriction List)

Contains no substance(s) listed on REACH Annex XVII (Restriction Conditions)

##### REACH Annex XIV (Authorisation List)

Contains no substance(s) listed on REACH Annex XIV (Authorisation List)

##### REACH Candidate List (SVHC)

Contains no substance(s) listed on the REACH Candidate List

##### PIC Regulation (Prior Informed Consent)

Contains no substance(s) listed on the PIC list (Regulation EU 649/2012 concerning the export and import of hazardous chemicals)

##### POP Regulation (Persistent Organic Pollutants)

Contains no substance(s) listed on the POP list (Regulation EU 2019/1021 on persistent organic pollutants)

##### Ozone Regulation (1005/2009)

Contains no substance(s) listed on the Ozone Depletion list (Regulation EU 1005/2009 on substances that deplete the ozone layer)

# Tabor 95

## Safety Data Sheet

According to REACH Regulation (EC) No 1907/2006, as retained and amended in UK law, and based on EU 2020/878.

### Dual-Use Regulation (428/2009)

Contains no substance subject to the COUNCIL REGULATION (EC) No 428/2009 of 5 May 2009 setting up a Community regime for the control of exports, transfer, brokering and transit of dual-use items.

### Explosives Precursors Regulation (2019/1148)

Contains no substance(s) listed on the Explosives Precursors list (Regulation EU 2019/1148 on the marketing and use of explosives precursors)

### Drug Precursors Regulation (273/2004)

Contains no substance(s) listed on the Drug Precursors list (Regulation EC 273/2004 on the manufacture and the placing on market of certain substances used in the illicit manufacture of narcotic drugs and psychotropic substances)

### National regulations

#### United Kingdom

British National Regulations : GB MCL (Mandatory Classification and Labelling).

## 15.2. Chemical safety assessment

No chemical safety assessment has been carried out
