

SECTION 1: Identification of the	ne substance/mixture and of the company/undertaking
1.1. Product identifier	
Product name	Liquimatic VG5
Product number	7552-000
Internal identification	GHS21952
1.2. Relevant identified uses of	f the substance or mixture and uses advised against
Uses advised against	No specific uses advised against are identified.
1.3. Details of the supplier of the	ne safety data sheet
Supplier	Morris Lubricants Castle Foregate Shrewsbury Shropshire SY1 2EL +44 (0) 1743 232200 +44 (0) 1743 353584 sds@morris-lubricants.co.uk
1.4. Emergency telephone nun	nber
Emergency telephone	+44(0)1743 232200 (08.45 - 17.00 GMT)
SECTION 2: Hazards identifica	ation
2.1. Classification of the substa	ance or mixture
Classification (EC 1272/2008)	
Physical hazards	Not Classified
Health hazards	Asp. Tox. 1 - H304
Environmental hazards	Not Classified
Classification (67/548/EEC or 1999/45/EC)	-
2.2. Label elements	
Hazard pictograms	
O'mu al accord	

Signal word

Danger

Hazard statements

H304 May be fatal if swallowed and enters airways.

Precautionary statements	P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor. P331 Do NOT induce vomiting. P405 Store locked up. P501a Dispose of contents/container to hazardous or special waste collection point.
Supplemental label information	EUH066 Repeated exposure may cause skin dryness or cracking.

2.3. Other hazards

This product does not contain any substances classified as PBT or vPvB.

SECTION 3: Composition/informat 3.2. Mixtures	ion on ingredients	
White Mineral Oil		60-1009
CAS number: 92062-35-6	EC number: 295-550-3	REACH registration number: 01- 2119487078-27-XXXX
Classification	Classification (67/548/EEC or 1999/45/EC)	
Asp. Tox. 1 - H304	Xn;R65.	
Lubricating Oil (Petroleum) C15-3 based	0 hydrotreated neutral oil-	30-60%
CAS number: 72623-86-0	EC number: 276-737-9	REACH registration number: 01-
		2119474878-16-XXXX
Classification	Classificatio	on (67/548/EEC or 1999/45/EC)

Asp. Tox. 1 - H304

The Full Text for all R-Phrases and Hazard Statements are Displayed in Section 16.

SECTION 4: First aid measures

4.1. Description of first aid measures

General information	Get medical attention if any discomfort continues.	
Inhalation	If spray/mist has been inhaled, proceed as follows. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Get medical attention if any discomfort continues.	
Ingestion	Get medical attention if any discomfort continues. Do not induce vomiting. Product contains petroleum based material, which, if aspirated into the lungs may result in chemical pneumonia.	
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water.	
Eye contact	Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Get medical attention promptly if symptoms occur after washing.	
4.2. Most important symptoms and effects, both acute and delayed		
General information	If aspiration into the lungs is suspected, eg when vomitting, admit to hospital immediately.	
Inhalation	Upper respiratory irritation.	
Ingestion	May cause discomfort if swallowed. The product contains mineral oil, which if aspirated into the lungs through vomitting after ingestion, may result in chemical pneumonia.	

Skin contact	Prolonged contact may cause redness, irritation and dry skin.
Eye contact	Irritation of eyes and mucous membranes.
4.3. Indication of any immedia	te medical attention and special treatment needed
Notes for the doctor	Treat symptomatically.
SECTION 5: Firefighting meas	sures
5.1. Extinguishing media	
Suitable extinguishing media	Extinguish with foam, carbon dioxide, dry powder or water fog.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising fro	om the substance or mixture
Specific hazards	Heat from fire could result in drums bursting
Hazardous combustion products	Protection against nuisance dust must be used when the airborne concentration exceeds 10 mg/m3. Oxides of carbon. Oxides of nitrogen. Fire may also create other unidentified organic gases some of which may be toxic.
5.3. Advice for firefighters	
Protective actions during firefighting	Control run-off water by containing and keeping it out of sewers and watercourses.
Special protective equipment for firefighters	Wear self-contained breathing apparatus.
SECTION 6: Accidental release	e measures
	e measures tective equipment and emergency procedures
6.1. Personal precautions, pro	tective equipment and emergency procedures For personal protection, see Section 8. In case of spills, beware of slippery floors and surfaces.
6.1. Personal precautions, pro Personal precautions	tective equipment and emergency procedures For personal protection, see Section 8. In case of spills, beware of slippery floors and surfaces.
6.1. Personal precautions, pro Personal precautions 6.2. Environmental precaution	 tective equipment and emergency procedures For personal protection, see Section 8. In case of spills, beware of slippery floors and surfaces. S Contain spillage with sand or earth. Avoid the spillage or runoff entering drains, sewers or watercourses. The product is insoluble in water and will spread on the water surface.
 6.1. Personal precautions, pro Personal precautions 6.2. Environmental precaution Environmental precautions 	 tective equipment and emergency procedures For personal protection, see Section 8. In case of spills, beware of slippery floors and surfaces. S Contain spillage with sand or earth. Avoid the spillage or runoff entering drains, sewers or watercourses. The product is insoluble in water and will spread on the water surface.
 6.1. Personal precautions, pro Personal precautions 6.2. Environmental precaution Environmental precautions 6.3. Methods and material for precaution 	 tective equipment and emergency procedures For personal protection, see Section 8. In case of spills, beware of slippery floors and surfaces. S Contain spillage with sand or earth. Avoid the spillage or runoff entering drains, sewers or watercourses. The product is insoluble in water and will spread on the water surface. contain spillage with sand or earth. Collect spillage for reclamation or disposal in sealed containers via a licensed waste contractor. Avoid water contacting spilled material or leaking containers. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. In case of spillage on water prevent the spread by use of suitable barrier equipment
 6.1. Personal precautions, propersonal precautions 6.2. Environmental precaution Environmental precautions 6.3. Methods and material for Methods for cleaning up 	 tective equipment and emergency procedures For personal protection, see Section 8. In case of spills, beware of slippery floors and surfaces. S Contain spillage with sand or earth. Avoid the spillage or runoff entering drains, sewers or watercourses. The product is insoluble in water and will spread on the water surface. contain spillage with sand or earth. Collect spillage for reclamation or disposal in sealed containers via a licensed waste contractor. Avoid water contacting spilled material or leaking containers. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. In case of spillage on water prevent the spread by use of suitable barrier equipment
 6.1. Personal precautions, properties of the section of t	 tective equipment and emergency procedures For personal protection, see Section 8. In case of spills, beware of slippery floors and surfaces. S Contain spillage with sand or earth. Avoid the spillage or runoff entering drains, sewers or watercourses. The product is insoluble in water and will spread on the water surface. containment and cleaning up Contain spillage with sand or earth. Collect spillage for reclamation or disposal in sealed containers via a licensed waste contractor. Avoid water contacting spilled material or leaking containers. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. In case of spillage on water prevent the spread by use of suitable barrier equipment 18 For personal protection, see Section 8. See Section 11 for additional information on health hazards. For waste disposal, see section 13.
6.1. Personal precautions, pro Personal precautions 6.2. Environmental precaution Environmental precautions 6.3. Methods and material for Methods for cleaning up 6.4. Reference to other section Reference to other sections	tective equipment and emergency procedures For personal protection, see Section 8. In case of spills, beware of slippery floors and surfaces. S Contain spillage with sand or earth. Avoid the spillage or runoff entering drains, sewers or watercourses. The product is insoluble in water and will spread on the water surface. containment and cleaning up Contain spillage with sand or earth. Collect spillage for reclamation or disposal in sealed containers via a licensed waste contractor. Avoid water contacting spilled material or leaking containers. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. In case of spillage on water prevent the spread by use of suitable barrier equipment NS For personal protection, see Section 8. See Section 11 for additional information on health hazards. For waste disposal, see section 13.

Advice on general occupational hygiene	Do not eat, drink or smoke when using this product.
7.2. Conditions for safe stor	age, including any incompatibilities
Storage precautions	Store in tightly-closed, original container in a dry, cool and well-ventilated place.
Storage class	Miscellaneous hazardous material storage.
7.3. Specific end use(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.
SECTION 8: Exposure cont	rols/Personal protection

8.1. Control parameters

Occupational exposure limits

White Mineral Oil

Long-term exposure limit (8-hour TWA): WEL 5 mg/m³ mist

Lubricating Oil (Petroleum) C15-30 hydrotreated neutral oil-based

Long-term exposure limit (8-hour TWA): ACGIH 5 mg/m³ WEL = Workplace Exposure Limit ACGIH = American Conference of Governmental Industrial Hygienists.

8.2. Exposure controls

Protective equipment

Appropriate engineering controls	Provide adequate general and local exhaust ventilation. Observe any occupational exposure limits for the product or ingredients.
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. The following protection should be worn: Chemical splash goggles or face shield.
Hand protection	The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material.
Other skin and body protection	Use barrier creams to prevent skin contact.
Hygiene measures	Use engineering controls to reduce air contamination to permissible exposure level. Wash promptly with soap and water if skin becomes contaminated.
Respiratory protection	No specific recommendations. Respiratory protection must be used if the airborne contamination exceeds the recommended occupational exposure limit.
Thermal hazards	Not anticipated under normal conditions of use. The product is combustible if heated excessively and an ignition source is applied.
Environmental exposure controls	Do not allow product to contaminate land.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance

Liquid.

Colour	Green.
Odour	Characteristic. Oil-like.
Odour threshold	Not determined.
рН	Not applicable.
Melting point	-25°C
Initial boiling point and range	>320°C @ 101.3 kPa
Flash point	126°C Pensky-Martens closed cup.
Upper/lower flammability or explosive limits	Not known.
Other flammability	Product is not flammable but on excessive heating may become combustible.
Vapour pressure	<0.1 kPa @ 20°C
Vapour density	Not determined.
Relative density	0.840 @ 15.6°C
Solubility(ies)	Insoluble in water. Soluble in the following materials: Organic solvents.
Partition coefficient	Not determined.
Auto-ignition temperature	Not determined.
Decomposition Temperature	Not determined.
Viscosity	5 cSt @ 40°C
Explosive properties	Not considered to be explosive.
Explosive under the influence of a flame	Not considered to be explosive.
Oxidising properties	The mixture itself has not been tested but none of the ingredient substances meet the criteria for classification as oxidising.
9.2. Other information	
Volatile organic compound	The product is a complex mixture, the majority of which would not be classed as a VOC. However it cannot be discounted that trace or low levels of VOC's may be present.
SECTION 10: Stability and rea	ıctivity
10.1. Reactivity	
Reactivity	There are no known reactivity hazards associated with this product.
10.2. Chemical stability	
Stability	Stable at normal ambient temperatures and when used as recommended.
10.3. Possibility of hazardous	
Possibility of hazardous reactions	Unlikely to occur under normal conditions of use. Unlikely to occur.
10.4. Conditions to avoid	
Conditions to avoid	Avoid heat, flames and other sources of ignition.
10.5. Incompatible materials	

Materials to avoid	Strong oxidising agents.		
10.6. Hazardous decompositio	on products		
Hazardous decomposition products	Oxides of carbon. Protection against nuisance dust must be used when the airborne concentration exceeds 10 mg/m3.		
SECTION 11: Toxicological int	SECTION 11: Toxicological information		
11.1. Information on toxicologi	cal effects		
Acute toxicity - oral Notes (oral LD∞)	Not expected to be highly toxic based on information of ingredients.		
Acute toxicity - dermal Notes (dermal LD₅₀)	Not expected to be highly toxic based on information of ingredients.		
Acute toxicity - inhalation Notes (inhalation LC∞)	Not determined. The product is unlikely to present any significant inhalation hazard at ambient temperatures and under normal conditions of use.		
Serious eye damage/irritation Serious eye damage/irritation	May cause mild, short lasting discomfort to eyes.		
Respiratory sensitisation Respiratory sensitisation	No evidence to suggest the product will be a respiratory sensitiser. Repeated exposure to oil mists may cause respiratory damage.		
Skin sensitisation Skin sensitisation	Not expected to be a skin sensitizer based on information on components.		
Reproductive toxicity Reproductive toxicity - fertility	No data available to suggest the product will cause reproductive toxicity.		
Aspiration hazard Aspiration hazard	Kinematic viscosity <= 20.5 cSt @ 40 C. Aspiration hazard if swallowed.		
General information	This product has low toxicity. Only large quantities are likely to have adverse effects on human health.		
Inhalation	Unlikely to be hazardous by inhalation because of the low vapour pressure of the product at ambient temperature.		
Ingestion	Swallowing significant quantities may cause discomfort, nausea, diarrhoea and irritation of the digestive tract. Aspiration into the lungs (e.g. through vomiting) after ingestion can be hazardous with possible resultant chemically induced pneumonia.		
Skin contact	Skin irritation should not occur when used as recommended. Repeated exposure may cause skin dryness or cracking.		
Eye contact	May cause temporary eye irritation.		
Acute and chronic health hazards	Prolonged or repeated contact with used oil may cause serious skin diseases, such as dermatitis and skin cancer.		
SECTION 12: Ecological inform	mation		
Factoriaity	The product is not expected to be bazardous to the environment		

Ecotoxicity

The product is not expected to be hazardous to the environment.

12.1. Toxicity

12.2. Persistence and degradability

Persistence and degradability	The product is not classed as being readily biodegradable by OECD test methods but is considered inherently biodegradable.
Stability (hydrolysis)	The product is based on highly refined mineral oils that are considered stable to hydrolysis.
Biodegradation	The product is not considered readily biodegradeable, albeit the major constituents are expected to ultimately biodegrade.
Biological oxygen demand	Not determined.
Chemical oxygen demand	Not determined.
12.3. Bioaccumulative potentia	al
Bioaccumulative potential	Bioaccumulation is unlikely to be significant because of the low water-solubility of this product.
Partition coefficient	Not determined.
12.4. Mobility in soil	
Mobility	The product is non-volatile. The product is insoluble in water and will spread on the water surface.
Henry's law constant	Not determined.
12.5. Results of PBT and vPvE	3 assessment
Results of PBT and vPvB assessment	This product does not contain any substances classified as PBT or vPvB.
12.6. Other adverse effects	
Other adverse effects	None known.
	orations
