

Product Information:

## **RACE PERFORMANCE 2T**

### **VERSATILE 2-STROKE ENGINE OIL**

#### **Description**

Race Performance 2T is a top quality synthetic boosted two stroke engine oil, combining high quality mineral oils with the latest performance additives. This grade has been developed directly from motorcycle racing technology. Race Performance 2T provides a high level of film strength, anti-wear performance and protects main and big end bearings, gudgeon pins, rings and bores, therefore prolonging engine life. Race Performance 2T is clean burning and virtually eliminates the need for maintenance on power valves and exhaust ports. It provides all season reliability for modern 2-stroke engines of all capacities.

#### **Applications**

Race Performance 2T is recommended for all two stroke engines, whether premix or injector, where an oil of this specification is demanded. Check the manufacturer's handbook for mixing method and dilution ratios. Ideal for engines used for high mileage or stop/start duties, where reliability is paramount, i.e. messenger fleets.

#### **Performance Level**

JASO FD

API TC

ISO-L-EGD

#### **Physical Characteristics**

Colour	Red
Density @ 15.6°C	0.860
Viscosity @ 100 °C, cSt	8.81
Viscosity @ 40 °C, cSt	53.0
Viscosity Index	144
Flash Point (Closed) °C	109
